A bar chart comparing the number of arrested and not-arrested individuals across ten primary offense types. The y-axis represents the count, ranging from 0 to 1,800,000 in increments of 300,000. The x-axis lists the primary types: NARCOTICS, BATTERY, THEFT, CRIMINAL TRESPASS, ASSAULT, OTHER OFFENSE, WEAPONS VIOLATION, PROSTITUTION, CRIMINAL DAMAGE, and DECEPTIVE PRACTICE. For each category, there are two bars: a yellow bar for 'ARRESTED_COUNT' and a blue bar for 'NOT_ARRESTED_COUNT'. The chart shows that for most offenses, the number of not-arrested individuals is significantly higher than the number of arrested individuals, with the largest difference seen in 'THEFT'.
